

The Honorable Michael K. Powell
Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Dear Chairman Powell:

I'm writing to urge you to support the proposed merger between EchoStar Communications and Hughes Electronics. I believe the merger holds tremendous potential for my company in El Dorado Springs, MO which sells EchoStar's DISH Network satellite TV service. The new company will offer a more attractive product to consumers, and this will mean more business for my company.

If the merger is approved, the new EchoStar will provide consumers in my area an affordable high speed Internet access service via satellite. There are a small number of customers in my area who do enjoy access to high-speed Internet access service via cable and DSL service. For them, this merger will result in increased competition in the broadband market, potentially driving down prices of DSL and cable providers. However, the majority of the homes, schools and businesses in my area are beyond the reach of cable and DSL wires. For these customers, the new EchoStar would be their only chance of getting an affordable high speed Internet service.

My customers chose satellite TV over cable because of its superior customer service, better quality picture and sound, and the abundance of channel options. However, cable companies now offer digital cable in millions of homes. This has negated the past advantages of satellite over cable TV and has begun to hurt EchoStar and DIRECTV's ability to compete. The new company will have the resources, spectrum and satellites necessary to offer a competitive satellite TV product, improving customer service and keeping cable prices in check.

EchoStar retailers like me will gain the ability to offer the popular sports packages that would otherwise only be available on DIRECTV, once the merger is completed. This additional programming will increase customer demand, and improve sales.

The new company will offer many benefits to customers, but the most important one is local broadcast channels via satellite in all U.S. television markets. This is the one service most sought after by my customers. I urge you to support the proposed merger between EchoStar and DIRECTV because local channels for all Americans is only possible if the companies are allowed to combine.

Sincerely,

LeRoy Wombold
